PROFESSIONAL EXPERIENCE

Voice AI QA **Apr 2026 - Present**
BlinkAI Automative

- Evaluated AI voice interactions for accuracy, response quality, and overall user experience.
- Tested end-to-end call flows, including appointment booking, rescheduling, and call transfers.
- Validated speech recognition (ASR) accuracy and AI intent handling across varied caller inputs, including edge cases and accent variations.
- Identified, reproduced, and documented issues in speech recognition, AI responses, and system integrations.
- Designed and executed test cases, including regression checks, to confirm fixes and catch new issues between releases.
- Delivered structured feedback to improve AI performance and caller satisfaction.
- Collaborated with cross-functional teams to communicate findings and support resolution of defects.

Freelance Technical Recruiter **Jun 2023 - Apr 2025**
Self-Employed | Remote

- Provided freelance US IT recruitment support for staffing firms and vendors, handling requirements across W2, C2C, 1099, and C2H hiring models.
- Sourced and screened candidates for technical roles such as QA Automation, Java, .NET, DevOps, and AWS using Boolean search, LinkedIn, and job portals.
- Validated technical skills, work authorization (H1B, GC, USC), and rate expectations before submitting candidates.
- Coordinated interviews and feedback between candidates and hiring managers, and followed up through offer and onboarding.
- Held requirement intake discussions with clients to clarify technical skills, rate, visa constraints, and timelines, and aligned on submission expectations.
- Held requirement intake discussions with clients to clarify technical skills, rate, visa constraints, and timelines, and aligned on submission expectations.
- Built and maintained a talent pipeline to support timely fulfilment of open requirements.

Technical Recruiter **May 2022 - May 2023**

Arreglo Consulting, LLC

- Generated 160+ quality submissions annually and closed 6-8 IT contract positions across W2 and C2C hiring models for prime vendors.
- Handled IT requirements for US-based firms across W2, C2C, 1099, US visa, contract, and contract-to-hire positions.
- Screened and evaluated candidates for technical roles including QA Automation, Java, .NET, DevOps, and AWS, validating skills and work authorization (H1B, GC, USC).
- Managed full-cycle recruitment using Boolean search, ATS, and job portals (Monster, Indeed, LinkedIn), employee referrals, and internal database.
- Coordinated interviews and collected timely feedback from hiring managers; maintained regular candidate communication by phone, email, and professional platforms.

Technical Recruiter **Dec 2021 - Apr 2022**

Cambay Consulting, LLC

- Managed 8-10 active IT requirements weekly and submitted 10-12 qualified candidates per month for state and federal government clients.
- Conducted resume screening and phone interviews to assess technical skills and fit, ensuring compliance with public sector hiring standards.
- Sourced candidates through job boards, LinkedIn, and industry events, and coordinated the interview process.
